AC195 is a compact 2-way full-range loudspeaker system comprised of one 258 mm (10 in) low frequency driver and one 25 mm (1 in) exit/35 mm (1.5 in) voice-coil compression driver. The rotatable PT[™] Progressive Transition waveguide provides 90° by 50° coverage in vertical cabinet orientation. Highslope passive crossovers minimize band overlap and well-controlled offaxis response.

The cabinet is fitted with M10 threaded suspension points. Four threaded inserts located on back of the enclosure allow attachment of a MultiMount® or similar type mounting.

AC195 is part of JBL's AE Application Engineered Series, a versatil e family of loudspeakers for a wide variety of fixed installation applications.
