WARNING & SAFETY INSTRUCTIONS

1. READ ALL INSTRUCTIONS

Carefully read and become familiar with the features and functions of these products before operating them.

2. RETAIN THESE INSTRUCTIONS

For future reference.

3. COMPLY WITH ALL WARNINGS

All warnings and instructions for this product should be adhered to.

4. USE WITH AMPLIFIERS

In order to avoid damage to drivers and other equipment, it is advisable to establish and follow a routine for powering up and powering down a sound system. With all system components connected, turn on source equipment (mixers, signal processors, record and playback units, etc.) BEFORE powering up amplifiers. Transient voltages from powering up source equipment can damage speakers if amplifiers are already turned on. Make sure that amplifier volumes are set to their minimum settings and power up any system amplifiers LAST. It is recommended that all system components be allowed to stabilize for several seconds before any source signals are introduced or level setting adjustments are made. Similarly, when shutting systems down, turn all amplifiers off first, before powering down any other system components.

5. CABLES

Do not use shielded or microphone cables for connection between amplifiers and speakers. Use only approved speaker cables with proper connectors.

6. RIGGING – SUSPENDING – MOUNTING

Suspending and mounting of these speaker systems can expose members of the public to serious health risks and even death. Under no circumstances attempt to rig, suspend or otherwise mount these speakers unless you are fully qualified and certified to do so by relevant local, state and national authorities. All relevant safety regulations must be followed. If you are not properly qualified or do not know of pertinent regulations, consult qualified personnel for advice.

7. CAUTION

These professional loudspeaker systems are capable of generating very high sound pressure levels. Use care with placement and operation to avoid exposure to excessive volume levels. Permanent hearing damage can result when operated to extreme levels.

8. SERVICE

There are no user serviceable parts inside this product. Users should not attempt to service this product. Warranty nullification could result if this is attempted.

Key Features

- 90°x 60°Elliptical Wave Guide.
- High power handling, high efficiency/ 1.75" Titanium diaphragm compression driver
- Integral High Frequency Driver Overload Protection
- Sophisticated crossover design enables smooth power and frequency response control through crossover region.
- Trapezoidal shape for arraying cabinets
- Dual-angle(0°or-10°)35mm pole socket
- 2 x 4-Way High Impact Plastic Handles
- High frequency EQ switch to boost(+3 dB)or flat output
- High pass output for mid/high frequency satellite speakers(subwoofers only)
- Signal present and HF protect LED indicators on full range cabinets.

EVO-X FULL RANGE

EVO-X12 EVO-X12M EVO-X15 EVO-X15M EVO-X215

EVO-X Series full range system

CONNECTION

1. Connect the speaker cable securely to your EVO-X cabinet and power amplifier(the amplifier should be OFF, POWER DOWN MIDE). Where possible use Speakon™ connectors as they are professional high current connections specifically designed for this application. Try to use the correct type of speaker cable according to the handling ability of your EVO-X Series Cabinet. Use 2 conductor equal stranded insulated cable for speaker runs. It is always advisable to use heavier conductor cables on longer runs.

2. If using Speakon™, insert the speakon and rotate 1/8 of a turn until locked in. If using a jack plug insert until secure.

3. Power up amplifier with levels on zero. Confirm units are operating.

EVO-X FULL RANGE AND SUBWOOFER

EVO-X15 EVO-X18B

SUBWOOFER OPERATION:PASSIVE MODE

EVO-X full range & EVO-XSUB Series extended full range system with external active crossover.

SUBWOOFER OPERATION: ACTIVE MODE

EVO-X full range & EVO-SUB Series extended full range system with external active crossover

UNPACKING

All Wharfedale Pro products are fully checked before leaving the factory. After unpacking please inspect cabinets for any physical damage. Please retain the shipping carton if possible and internal

packing material in case the unit needs to be returned. Please check as soon as possible the unit is functioning. In the event of any damage please contact your dealer immediately so that a written claim for damage can be made.

WHARFEDALE PRO LIMITED WARRANTY

Wharfedale Pro products are warranted of manufacturing or material defects for a period of one year from the original date of purchase. In the event of malfunction, contact your authorized Wharfedale Pro dealer or distributor for information.

*Be aware that warranty details may differ from country to country. Contact your dealers or distributor for information. These terms do not infringe your statutory rights.
