## ES-10

### DESCRIPTION

The ES-10 is a spectacular 2-way point source system, which employs a single 10P (3" VC) woofer for low-mid frequency reproduction and together with the M-60N compression driver offers an outstanding intelligibility. A rotatable horn allows precise coverage and control with its 110° x 50° in horizontal or vertical (50° x 100°) position.

The ES-10 is an ultra-compact system designed using top grade birch plywood and protected with an impact resistant ISO-flex paint. The front elements of the cabinet are protected using a solid metal grill assisted by an acoustically transparent fabric.
