

Kadas

KD-2B2AT

PROFESSIONAL AUDIO CABLE

PRODUCT FEATURES

- Balanced Single Pair Audio Cable
- PVC Jacket
- Flexible and cost efficient
- Ideal for rack wiring
- Black color jacket for dirt resistance
- High quality oxygen free copper conductor

DESCRIPTION

The KD-2B2AT is a high quality analog audio cable for high application demand. The flexible PVC outer jacket makes it suitable for rack wiring and small installation application where mechanical stress is lower. The cable is suitable for adverse condition where temperature and humidity are inconsistent. The cable is also suitable for permanent installations.

SPECIFICATIONS

Conductor Material:	Oxygen Free Copper
Conductor Description:	16 x 0.12mm
Number of Pairs:	1
Insulation:	PE (Polyethylene)
Cover:	Aluminium Foil Shield
Screen Material:	Tinned Copper
Screen Description:	7 x 0.20mm
Jacket	PVC (Polyvinyl Chloride)
Overall Diameter:	3.2mm
Resistance:	111.2 ohm/km
Conductivity	98%
Max. Pulling Tension:	4kg
Current Rating (Max):	7 Amps
Spool Size:	260 x 80 x 110mm
Cable Spool Length:	200 Meters
Jacket Color:	Black
