KD-2T2S

PROFESSIONAL MICROPHONE CABLE

PRODUCT FEATURES

- Balanced Single Pair Microphone Cable
- Robust PVC Jacket
- Ideal for extension cable
- Black color jacket for dirt resistance
- High quality tinned copper conductor

DESCRIPTION

The KD-2T2S is the highest quality analog microphone audio cable for high application demand. The PVC outer jacket meets the demand for the most demanding environment with special characteristics; high tensile strength and resistance to abrasion. The cable is suited for the most adverse condition in wet and humid environment. The cable is also suitable for permanent installations.

SPECIFICATIONS

| | |
|------------------------|---------------------------|
| Conductor Material: | Tinned Copper |
| Conductor Description: | 60 x 0.08mm |
| Number of Pairs: | 1 |
| Insulation: | PE (Polyethylene) |
| Cover: | Cotton Yarn, Cotton Paper |
| Shielding Material: | Tinned Copper |
| Shielding Description: | 128 x 0.10mm |
| Jacket | PVC (Polyvinyl Chloride) |
| Overall Diameter: | 6.0mm |
| Resistance: | 61.3 ohm/km |
| Conductivity | 98% |
| Max. Pulling Tension: | 8kg |
| Current Rating (Max): | 11 Amps |
| Spool Size: | 260 x 80 x 110mm |
| Cable Spool Length: | 100 Meters |
| Jacket Color: | Black |
