- Fresh new design with full frontal steel grille
- Top and bottom practical handles
- Bluetooth model available Typhon-AX12-BT
- Bi-amplified with Class D amps
- 4 position DSP

# Typhon

*TYPHON - Pronounced - "TYF—ON"*

In ancient mythology, Typhon was a giant who brought fear to his enemies. From a similar era to the Titans, it is said that the God Typhon had the power to create and control massive wind tornadoes in his battles. Mythology also often refers to him as being invincible.

Typhon-AX12 and Typhon-AX12-BT are powerful, portable and versatile active loudspeakers. Suitable for many professional audio applications a Typhon-AX12 is ideal for DJ's, live bands, small to medium size stages, installations and houses of worship.

A custom "Monitor wedge" accessory is supplied with each Typhon for when Typhon is used on the floor as a monitor. Stability and the perfect angle - every time!

## DRIVERS

Custom Wharfedale Pro transducers have been selected for Typhon. The custom compression driver features a 1.75" voice coil. This is coupled to a 100°x80° waveguide for smooth HF dispersion. The custom Wharfedale Pro 12" LF transducer has a newly designed ferrite core, uses flat coil windings to aid cooling, and features a moisture rejecting cone material which allows Typhon to be used in damp or humid conditions.

## POWER

720 watts of continuous power. 1440 watts peak.

2 x Class D amps deliver punch and performance.

## VERSATILITY

On stage with a tripod, in the van with a tourbag or installed with the WPB-2 wall bracket, Typhon can go anywhere.

## Bluetooth

Typhon-AX12-BT allows for stereo pairing of 2 speakers. Wirefree performance power.

## DSP

4 internal DSP modes help tune the Typhon to your surroundings. Monitor | Punch | Bass | Flat.
